The 'EU NEIGHBOURS east' project has a high level presence online and on the ground. It operates through three communication pillars: 'In the media', 'Online & Digital' and 'Dialogue-driven activities'.

In June 2018, YEAs joined local communities in the region for tree-planting events dedicated to World Environment Day.

In February 2019, almost 100 YEAs from the EU and its Eastern partner countries gathered in Brussels to launch this year's celebration of the 10th anniversary of the Eastern Partnership (EaP).

Dedicated to Human Rights Day, in December 2018, YEAs across the region initiated events to reach out to their communities and explain what human rights mean to them.
