WB SUCCESS STORIES

YOUNG EUROPEAN AMBASSADORS (YEAs)

Five Ambassadors and five Attachés from across the Western Balkans coming from different backgrounds, but all are interested in learning about the European Union's values, connecting and engaging with their peers both online and offline, pursuing their talents and passions and being the voices of their generation.

YEAs are open to sharing ideas and inspiring change within their communities, the Western Balkan region, and across the EU. They will be involved in activities such as webinars, online learning platforms, virtual events, conferences and cultural events. They will participate in study trips across the EU and the Western Balkans, and get involved in all kinds of creative and social action projects.
