

**Session Title:** The Parking Network Start-Up Stage**Description:**

It's time to "park" the idea that our industry is outdated and instead embrace our thriving start-up ecosystem and culture of innovation. In celebration of the industry's strength and vitality, Parking Network and the European Parking Association will collaborate to present the Start-Up Stage at this year's EPA Congress and Exhibition.

Together, Parking Network and EPA will welcome parking and mobility newcomers to showcase their cutting-edge technology and solutions. Handpicked from the forefront of our industry, these rising stars and entrepreneurs will present a range of creative solutions for mobility, EV charging, digital parking and much more.

This eclectic mix of small, tech-focused start-ups will take to the stage in the Silver Hall from 1pm on the 13<sup>th</sup> of September. Engaging and informative 10-minute pitches will be followed by short 5-minute Q&As, giving you the opportunity to truly uncover this pool of new talent.

And, as these companies will not be exhibiting at this year's EPA Congress and Exhibition, this is your one and only opportunity to discover the disruptive solutions that they have to offer. If you're looking to future proof your parking, overcome hurdles and break down traditional barriers these passionate champions of the parking industry are on hand to help!
