Steliga and Colleagues D5 Workshop Our climate is changing – but are we? Introducing environmental sustainability to your simulation practice K. Mitchell and	anatomical models- methods from the collaborative Erasmus+ project ACCEDE (Anatomically aCCuratE 3D modEls) J. Travènec and Colleagues D6 Workshop The art and craft of ChatGPT: harnessing the power of simulation- based activities C. Sa Couto and	engagement in times of organizational change using simulation N. Toxvig and Colleagues D7 Workshop Emotional Intelligence: A Journey Inside the Emotional Life during Labor and Delivery F. Salvetti and	Using Folklore to Unlock Key Concepts Within Qualitative Simulation-Based Research V. Tallentire and Colleagues D8	together by working to learn together; workshop in how to transform learning through authentic interprofessional simulation-based education D. Carr and Colleagues D9	
14:45 - 15:00	Lectures & Keynotes	Equity, Diversity, Inclusivity C3 Oral Presentation	C2 C2 Short Comms Patient Safety and Quality	D12 D12 Short Comms Quality assurance, Faculty development and Program evaluation	Team Education and Training III Foyer B E-Posters 1 Curriculum Development and	Faculty development and Program evaluation Foyer B	C1	teamwork in healthcare: Science and practice S. Lambert and Colleagues D1 Workshop How to Manage a Difficult Debrief S. Berry and	Debriefing : The dos and donts S. Mascarenhas and Colleagues Coffee Break D2 Workshop Ive always wanted to develop my skills in Thematic Analysis: a research methods workshop. G. Gormley and Colleagues	cognitive skills to life with the repertory grid technique P. Dieckmann and Colleagues D3 Workshop There is no learning without mistakes: utilizing productive failure in simulation I. Bursac and	D4 Workshop Come and play with me!: Using games to improve professional skills B. Hoff Esbjørn and	simulation-based traditional games A. Steliga and Colleagues D5 Workshop Our climate is changing – but are we? Introducing environmental sustainability to your simulation practice K. Mitchell and	anatomical models- methods from the collaborative Erasmus+ project ACCEDE (Anatomically aCCuratE 3D modEls) J.
