

DENMARK

- **Life Sciences:** as an international hub for life sciences, Denmark offers foreign companies a respected international health laboratory with a politically favourable climate towards life science, a world-class research environment, a highly skilled labour pool, and a strong, innovative and sustainable life science cluster.
- **Healthcare:** the construction of new national sustainable super hospitals with state-of-the-art health IT infrastructure is well underway in Denmark. This is a unique opportunity for companies to do business and develop new solutions.
- **Events:** UK Pavilion hosted by British Embassy in Denmark & Sweden at Nordic Life Science Days 2023 (November 29-30th 2023, travel grants are available for SMEs, concept note available for ITAs and companies), Embassy Tech Talks event on Health Technology (Q4).
